

# Assignment 2 - Building AI Systems

Renato Francisco Goedert  
Student number: 20099697

# Agent Architecture

# Code Walkthrough

Demo

# Monitoring and observability

Current:

- Per-interaction: query, response, agent, processing log
- Per-user log files

./logs:

```
[2026-06-12T21:47:48.947248]
Query:    What are your opening hours?
Response: Our warehouse at Park West Business Campus, Dublin 12, is open Monday to Friday from 09:00 to 17:30.
If you need any further assistance, feel free to ask!
Agent:    GeneralAgent
Log:      ['Triage: category=general urgency=low route=GeneralAgent method=N/A', "GeneralAgent: docs=['faq_007',
'policy_006', 'policy_009', 'policy_005', 'policy_007']"]]
```

# Key Metrics

- Routing distribution
- Handoff rate
- Loop/escalation rate
- Latency per node
- RAG retrieval scores
- MCP failure rate
- Token usage/cost per conversation

# LangSmith
